ITIL Foundation

Foundation

Course Duration

3-day public or single organisation course

Overview

This course provides IT Managers and Practitioners with a practical understanding of the key concepts, principles, processes and functions that enables successful IT Service Management provision. It also prepares delegates for the ITIL Foundation Certificate Examination. The course is based on the ITIL best practice service lifecycle approach.

Our ITIL Service Management Essentials course based on the process model is still available as a classroom course or a fully interactive web-based course; alternatively, we also offer a 2-day course.

Objectives

The course:

- enables delegates to understand how an integrated IT Service Management framework, based on ITIL best practice guidelines, can be adopted and adapted within their own organisations.
- provides proven practical guidance on how to successfully introduce an integrated IT Service Management framework based on the ITIL best practice service lifecycle approach.
- prepares delegates for the ITIL Foundation Certificate in IT Service Management examination.

Who should attend?

This course is for IT Managers and Practitioners involved in the strategy, design, and implementation and on going delivery of business-used IT services and who require an insight into Service Management best practice.

Professional qualification

The Foundation Certificate in IT Service Management, which is a pre-requisite for the all other ITIL-based Certificates in IT Service Management. The examination is a 1-hour multiple choice paper, normally

taken at the end of the course.

One free examination re-take is provided for any delegates attending public courses.

Structure

The course is assignment based, with practical coursework. It is based upon the OGC's ITIL Books: Service Strategy, Service Design, Service Transition, Service Operation and Continual Service Improvement.

There is particular importance placed on developing an underlying service culture within the IT organisation.
